EXECUTIVE THESIS • 01A THE BOARDROOM PRACTICE

Great Systems Help People Do Great Work; AI Is the Force Multiplier

- Two-Register Studio Architecture: Separated cleanly into Register A (01A Executive Systems & AI Governance — zero cartoons) and Register B (01B Originals, Publishing & 2.50M+ View Media Lab).
- Practitioner Authority: Fronted personally by Isaac Pena — APAC-level workforce and operational systems architect governing hundreds of sites and people.
- The Skunk Works Test-Track Principle: Every automation harness, custom compiler (AgimBookEngine), and AI pipeline is stress-tested on our own commercial IP first before deployment to clients.
- Sovereign Local-to-Edge Stack: Flows outward from a 300+ note Personal Obsidian Vault to 7 federated subdomains (*.agimstudio.com) with $0/mo cloud GPU bloat.

FRONTED BY A REAL HUMAN OPERATOR: ISAAC PENA

Why real operational credentials, family-first guardrails, and shipped proof beat anonymous internet prompt gurus.

PILLAR 01 • FAMILY FIRST

Father & Family Man in Australia

- Every system is measured by one test: does it return real hours to family and sleep?
- Strict capacity cap (4-6 evening discovery calls/week on Tue & Thu nights) + PID Loop self-checks to prevent 2:00 AM 'AI psychosis'.

PILLAR 02 • ENTERPRISE SCALE

APAC Enterprise Systems Architect

- Designs and governs workforce and operational systems across hundreds of work locations and hundreds of people across Asia-Pacific.
- Translates enterprise governance (Drop-Zone Ingest, Build Gates, SOP Constitutions) into tools one person or small business can run.

PILLAR 03 • PEOPLE LEADERSHIP

5+ Years People & Ops Management

- Core Stance: 'People First, Process Driven' and 'Fix it once, fix it forever'.
- Focuses on human adoption, clear checklists, and simple habits that real staff, tradies, and families actually stick to.

PILLAR 04 • SHIPPED PROOF

Multi-Disciplinary Builder (Non-CS)

- Directed AI harnesses to ship a 60 Hz 3D multiplayer game (Boundary Inc.), a 180-page hardcover book (AGIM's Wisdoms), Cadence (2.5M+ views), and Radar.
- Proves that articulating the brief and building the Harness is the true human superpower.

THREE BROKEN MARKETS READY FOR A 'ROBIN HOOD' RESET

Cutting through bloated $99/mo SaaS wrappers, fear-tuned news feeds, and brittle flat-image AI publishing.

MARKET 01 • SAAS & AI EDUCATION

Predatory Subscriptions vs. Robin Hood Utility

- Broken Status Quo: Thin AI prompt wrappers charging $49-$299/mo with dark-pattern trials and lock-in.
- Agim Reset: Free public access to Agim Learn, Radar & Recon. A transparent one-off A$10 Studio Bundle. Consulting that graduates clients with their own working recipe.

MARKET 02 • NEWS & GLOBAL MONITORS

Fear-Tuned Doomscroll vs. Finite Calm Briefing

- Broken Status Quo: Infinite scroll, alarm red banners, unlabelled political spin, and anxiety hooks.
- Agim Reset: 'The World According to Agim' (Radar) — 7 to 9 daily items across 5 balanced lanes (Solved, Science, Worth Knowing, Reframe, Coming Up), 0/10 legal-risk source labels, ending with 'You're up to date'.

MARKET 03 • AI BOOK & DECK PUBLISHING

Baked Raster Drift vs. Deterministic 4-Layer Craft

- Broken Status Quo: AI generators bake borders, text, and art into one flat image—fix one typo and the art mutates.
- Agim Reset: AgimBookEngine separates Manuscript JSON, Parametric Vector Plates, Bounding-Box Typography, and Modular Asset Slots (0.4s recompile).

THE BASIC TOYOTA COROLLA VS. FERRARI / FORMULA 1 HARNESS LAW

Why a free lightweight model inside a structured Harness beats a frontier model inside a bare Chatbot.

THE BARE CHATBOT TRAP (95% OF USERS)

A Formula 1 Engine Bolted to a Shopping Trolley

- No Steering Wheel: Dropping a frontier model into a blank chat window with vague wishes causes it to spin out at 300 km/h.
- Context Amnesia: Knowledge is trapped inside a scrolling chat thread that degrades the longer it runs.
- Repeated Mistakes: You argue in all-caps, open a new tab tomorrow, and the model makes the exact same error again.
- Instant Obsolescence: Every time a new model drops, 'secret prompt tricks' break.

THE AGIM HARNESS STANDARD (OUR MOAT)

Swap Corolla or Ferrari Into the Same Rally Chassis

- 1. RULES.md (The Steering Wheel): Identity, Australian English standards, and non-negotiable invariants.
- 2. 00_Inbox_and_Raw/ (The Loading Dock): Single drop-zone for messy voice notes, PDFs, and site sheets.
- 3. 10_Knowledge_and_Standards/ (The Playbook): Atomic evergreen mental models and checklists.
- 4. 20_Active_Projects/ (The Workbench): Living deliverables, code, and manuscripts.
- 5. 30_Lessons_and_Decisions/ (Self-Learning Memory): 'We tried X -> Failed because Y -> Always do Z.' Fix it once, fix it forever.

OBSIDIAN AS THE SOVEREIGN LOCAL BRAIN & FEDERATED WEB SUITE

Zero vendor lock-in, $0/mo cloud compute bills, Cloudflare Zero Trust security, and 24/7 Edge D1 failover.

AGIMSTUDIO.COM • SOVEREIGN

TIER 1 • SOVEREIGN LOCAL BRAIN

Personal Obsidian Vault (Mac NVMe)

- 10_Wiki/AGIM/ holds immutable character bibles, colour palettes, and design principles.
- 20_Outputs/Projects/AGIM/ holds all 4 book manuscripts, 52 video scripts, PRDs, and the Brand Folder.
- 100% offline-resilient plain-text Markdown backed up via Git and Time Machine.

TIER 2 • LOCAL COMPUTE DAEMONS

Mac Studio ('FLOW FLOW' localhost:8000)

- Runs heavy Veo 3.1 video rendering, AgimBookEngine PDF compilation, SQLite databases, and RSS ingestion locally.
- Saves $150-$300/mo in cloud GPU/server bills while keeping private data on-premise.
- Instant Telegram push alerts via @agim_studio_alerts_bot.

TIER 3 • EDGE GATEWAY & FAILOVER

Cloudflare Zero Trust + D1 SQLite Worker

- Cloudflare Access & Director SHA-256 Gates protect private tools (hello.agim.ai@gmail.com).
- Cloudflare Edge Worker + D1 SQLite cache automatically serves static snapshots when the Mac sleeps (100% uptime).

TIER 4 • FEDERATED SUBDOMAINS

Unified by the 9-Dot Waffle Switcher

- agimstudio.com (Public Hub & Store) • learn.agimstudio.com (Curriculum) • agimstudio.com/talk (Consult).
- radar.agimstudio.com (Briefing) • recon.agimstudio.com (Toolkit) • cadence.agimstudio.com (Video) • boundaryinc.agimstudio.com (3D Game).

LOCKED ANATOMICAL INVARIANTS: AGIM & AGIM'S WIFE

Strict visual anchors and the 4-Beat Slapstick Formula guarantee zero style drift across books, shorts, and merch.

HERO • AGIM (THE OVER-ENGINEERING OPTIMIST)

6 Locked Features & The 4-Beat Slapstick Engine

- Wardrobe & Features: Forest Green Hoodie (#2E7D32 / #2E6F40), white drawstrings, thick arched eyebrows, 5 o'clock stubble, right-cheek mole, round catchlight eyes.
- 4-Beat Formula: (1) Peaceful Illusion -> (2) Over-Engineered Approach (chalkboards/calipers) -> (3) Kinetic Betrayal (TWANG!) -> (4) Serene Thumbs-Up (10/10 Good Vibes).

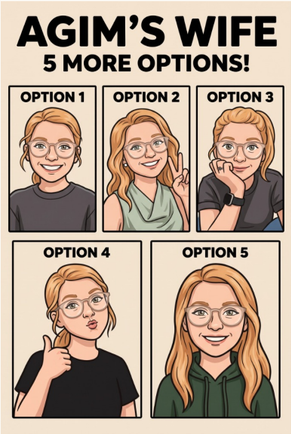

CO-STAR • AGIM'S WIFE (THE EFFORTLESS FOIL)

6 Locked Features & 6-Tier Capsule Look Book

- Signature Anchors: Translucent champagne-taupe rounded-cat-eye glasses (#C4A992), warm hazel-green irises (#6E8268), golden-honey blonde waves (#D89B56), engagement ring & black smartwatch.
- Wardrobe (W-01 to W-07): Casual Daily (#4A484B), Date Night Sage Silk (#9CAF9E), Cozy at Home (#1E1E20), On The Go, Autumn Mustard (#C8963E), Winter Puffer (#6E7E58) & Matching AGIM Hoodie.

AGIM'S WIFE — 6-TIER CAPSULE WARDROBE LOOK BOOK

CANONICAL EXPRESSIONS & MATCHING HOODIE (W-07)

AGIMBOOKENGINE: 'NEVER REGENERATE A PAGE TO FIX A SCREW'

Deterministic 4-Layer Python + SVG + ReportLab compiler across all 4 books in the Agim Studio library.

THE 4 DETERMINISTIC LAYERS

Why Separating Text, Borders & Spot Art Changes Everything

- Layer 1 — Print-Press Geometry & Gutter Guards: Hard-locked 300 DPI bleed (+3.175 mm), trim, and automatic Verso/Recto spine gutter shifts (+8.0 mm / +68 px on 2400x2400 master grids).
- Layer 2 — Parametric Vector Backing Plates: Python generates crisp SVG monument dividers, Heritage Forest Green (#1E3528) & Warm Linen (#F4F0E6) bands, and Antique Brass (#B5924C) double rules.
- Layer 3 — Bounding-Box Typography & Callouts: Auto-scales and wraps entries, running headers, and programmatic [TRY THIS] / [1%ER RULE] plinths with overflow protection.
- Layer 4 — Modular Asset Slots: Every diagram or cutaway has a named slot ID (e.g. slot_ch1_p25_ratchet_screwdriver_cutaway.png). Swap 1 image -> recompile Page 25 in 0.4 seconds.

CADENCE STUDIO: 2.50M+ ORGANIC VIEWS & MULTI-PLATFORM SYNC

Automated Veo 3.1 video pipeline, Executive Home Cockpit, Ideas Vault, and Creator Edition standalone app.

AGIMSTUDIO.COM • SOVEREIGN

LIVE PRODUCTION METRICS & COCKPIT

1 Video -> 3 Platforms With Zero Manual Grind

- Proven Reach: 1,395+ posts synced and 2.50M+ organic views on Instagram (@agim.ai -> @agimstudio) + YouTube Shorts API v3 live (@agim.a).
- 52 Scripted Comedy Shorts: Complete storyboard log covering Domestic Physics, Perpetual Infinite Loops, and Surreal Reality Glitches.
- Executive Home Cockpit (view-home): AI morning debrief, 4-KPI ribbon, standout cards, and SVG velocity sparklines.
- Ideas & Opportunities Hub (view-ideas): Tag any video (Good / Information / Bad) into SQLite so future batches compound what works.

TUTORIALS & ROBIN HOOD DISTRIBUTION

Agim Hosts the Software Tutorials + Creator Edition

- Mascot Boundary Rule: Cartoon AGIM hosts the 4-episode Cadence tutorial wave ('How to Run 3 Channels Without Losing Your Weekend').
- Automated Telegram Alerts: Instant push notifications via @agim_studio_alerts_bot on post publish, low inventory (<=3 videos), and Monday morning wrap-up.
- Cadence Creator Edition: Packaged as a standalone desktop app gifted free to friends/family and unlocked via the A$10 Studio Bundle to undercut $99/mo SaaS schedulers.

AGIM RADAR ('THE WORLD ACCORDING TO AGIM') & AGIM RECON

A finite, anti-anxiety daily briefing paired with private browser-side investigative utilities.

AGIMSTUDIO.COM • SOVEREIGN

RADAR.AGIMSTUDIO.COM • MACRO BRIEFING

The World According to Agim (Informed, Not Anxious)

- Today (Finite Daily Edition): 7-9 items across 5 lanes (Solved, Science & Tech, Worth Knowing, A Different Way to Think, Coming Up) ending with 'You're up to date'.
- Every Item Shows: Neutral 2-sentence summary, Scale Line, 'What this does and does not mean' line, and 0/10 legal-risk structural source chips (Funding model, Country, Primary Doc link).
- Inline '...' Rubric Training: Click '...' on any card (Good / Adjust / Bad) to update SQLite source weights and train Gemini 2.5 Flash.
- Atlas, 7-Part Explainers (EU AI Act, Russia/Ukraine) & Opt-In Monitor with base rates.

RECON.AGIMSTUDIO.COM • MICRO TOOLKIT

Private Browser Superpowers & Free AI Directory

- Username Footprint Scanner: Server-side check across 10 high-signal platforms in seconds with zero search-history tracking.
- Domain, DNS & RDAP Inspector: Instant ownership, MX/SPF, and registry verification.
- 100% Client-Side Image & EXIF Forensics: Parses camera metadata and GPS pins inside browser memory—photos never upload to a server.
- The 'Robin Hood' Directory: Curated free & open-source tools (Ollama, ComfyUI, Whisper, Photopea) that replace expensive subscriptions.

AGIM LEARN: THREE-GENERATION CURRICULUM & GRADUATION KITS

Written in warm, plain Australian English for Young Makers (12-25), Professionals (25-55), and Seniors (55+).

THE 5 FREE INTERACTIVE LESSONS (<25 MINS TOTAL)

Zero Login Wall — Immediate Public Good

- Lesson 1 — The 4 Concentric Circles of AI: AI > Machine Learning > Neural Networks > LLMs, with a live 3-Generation Analogy Switcher (Gamer / Business / Kitchen).
- Lesson 2 — Where AI Is Going: From the 'Rhonda, Restaurant & Milk' Tuesday morning brief to curing real sicknesses through human clarity.
- Lesson 3 — Chatbot vs. Harness: Interactive Basic Toyota Corolla vs. Ferrari / Formula 1 Car simulator.
- Lesson 4 — Self-Learning Folders: Copy-pasteable 5-folder blueprint (RULES.md + 'Fix it once, fix it forever').

BOUNDARY INC.: THE '5 MINUTES VS. 1 WEEK' HARNESS PROOF

Demonstrating live on talk.html how a structured AI Harness turns a 5-minute prototype into a 60 Hz 3D world.

STAGE 1 • THE 5-MINUTE LIVE PROTOTYPE

Playable Directly on the Consultation Page

- Instant Demystification: Visitors play the 5-minute game version right in their browser on talk.html.
- The Lesson: Anyone can generate a quick 5-minute toy in a bare chat window, but without structure it collapses the moment you try to add a second system.

STAGE 2 • THE 1-WEEK HARNESS EVOLUTION

Full 60 Hz 3D Frontier & Automation Game

- Structured Engineering: Governed by AGENTS.md, section-indexed docs (npm run section), and deterministic build gates.
- Shipped Gameplay Systems: 3D Homestead construction, drivable vehicles, Village Wall-Shops, Halo-style enemy tiers, and automated logistics.
- Suite Integration: Cross-subdomain SSO player persistence + live Telegram event telemetry ([BoundaryInc] [action] {player} at {time}).
